LONG DESCRIPTION: <p>Peanut Butter Breath, also known as "Peanut Butter" and "Peanut Breath," is a hybrid marijuana strain known for its sedating effects. Crossed with Do-Si-Dos and Mendo Breath, Peanut Butter Breath has a unique nutty and earthy terpene profile when smoked. Beyond the terps, this strain will bring you down into a quality state of chill and relaxation. Originally from ThugPug Genetics, Peanut Butter Breath is very popular and there are many Do-Si-Dos and Mendo Breath crosses out there—breeders Clout King have one called "Peanut Butter Cup."</p>	LONG DESCRIPTION: <p>Gelato 33 aka Gelato Kush is a hybrid marijuana strain made by crossing Sunset Sherbet and Thin Mint GSC. Since its birth, a number of phenotypes have been released, all with their own unique attributes. One of them is Gelato #33, a balanced hybrid with compact buds, staying true to its Cookie genetics. Like other Gelato phenotypes, Gelato #33 is covered with fiery orange hairs while its buds can be dark green to purple. With sweet citrus and fruity flavors, Gelato #33 offers an uplifting and energetic high that is perfect for any post-work activity after a long day.</p>	LONG DESCRIPTION: <p>Cereal Milk is a hybrid marijuana strain from Cookies. Cereal Milk is made by crossing Y Life (Cookies x Cherry Pie) and Snowman, a sativa-dominant Cookies pheno. Cereal Milk has a loud flavor with a sweet milk and ice cream nose that will keep you dipping back into your stash. You can expect dense, quality nugs dripping with trichomes and a potent high.</p>	LONG DESCRIPTION: <p>Kush Mints is a hybrid weed strain made from a genetic cross between Animal Mints and Bubba Kush. This strain is 50% sativa and 50% indica. Kush Mints is a potent and flavorful strain that has a minty and cookie-like aroma and flavor, with hints of gas and pine. It has a balanced high that is both relaxing and euphoric, with a pleasant body buzz and a creative mind. Kush Mints is 28% THC, making this strain an ideal choice for experienced cannabis consumers. Leafly customers tell us Kush Mints effects include feeling relaxed, euphoric, and aroused. Medical marijuana patients often choose Kush Mints when dealing with symptoms associated with anxiety, stress, and depression. Bred by Mr. Nice Seeds, Kush Mints features flavors like mint, menthol, and pine. The dominant terpene of this strain is limonene. The average price of Kush Mints typically ranges from \$15-\$20 per gram. Kush Mints is a rare and exclusive strain that is not widely available, so if you find it at your local dispensary, don't hesitate to try it out. If you've smoked, dabbled, or consumed Kush Mints, tell us about your experience by leaving a strain review.</p>	LONG DESCRIPTION: <p>Mimosa, also known as "Purple Mimosa," is a hybrid marijuana strain made by crossing Clementine with Purple Punch. In small doses, this strain produces happy, level-headed effects that will leave you feeling uplifted and motivated enough to take on any mundane task. In large doses, Mimosa may make you feel sleepy and relaxed. This strain has a strong aroma and flavor that reminds you of its namesake, with notes of fruit and citrus flavors bursting through. Medical marijuana patients choose this strain to help relieve symptoms associated with depression and stress. Mimosa is a staple from the Tangie family. Breeder Symbiotic Genetics has released a refined Mimosa dubbed Mimosa v6.</p>	LONG DESCRIPTION: <p>Skilatti is a hybrid weed strain made from a genetic cross between Zkittlez and Gelatti. This strain is a balanced mix of sativa and indica, suitable for both daytime and nighttime activities, like socialization and movies. Skilatti is 24% THC, making this strain an ideal choice for experienced cannabis consumers. The average price of Skilatti grams typically ranges from \$15-\$20. Bred by Dying Breed Seeds, Skilatti's effects include tingly and giggly, and may benefit medical patients looking for relief from depression and nausea. If you've smoked, dabbled, or consumed Skilatti, please tell us about your experience by leaving a strain review.</p>
